

### **Mission**

Our mission at Cielo Scholarship Fund is to assist those seeking technical school education.

We believe this can be done through low cost programs that do not create large amounts of debt for the student.

## **Cielo Scholarship Fund**

**The Sky's the Limit!**

## **Find the path you wish to walk - we will help with the journey!**

Trade Schools and Community Colleges are a great alternative to traditional four-year schools. Job opportunities are booming for individuals with vocational training, often leading directly to employment after graduation. These programs offer students the ability to study a subject of their passion, while spending less money on tuition, and increasing placement in a job in which they are qualified.

We want to help you get into the job market quickly and competitively. We work with Emily Griffith, Front Range and other accredited trade and technical schools and colleges in the greater Denver and Boulder areas.

## **What is your passion?**

Programs include, but are not limited to:

Legal Office  
Office Administration  
Accounting  
Machine Technologies  
Criminal Justice  
Medical Clerical  
Dental Assisting  
Pharmacy Tech  
Accounting  
Computer Networking  
Computer Based Careers
